EDUCATION

Parul University	Vadodara, Gujarat
Bachelor of Technology in Computer Science & Engineering (B.Tech CSE)	Expected 2028
Cumulative CGPA: 8.8 / 10.0	2024 - Present

TECHNICAL SKILLS

Languages & Querying:	JavaScript, TypeScript, Python, SQL (SQLite, PostgreSQL, MySQL)
Frameworks & UI:	HTML5, Vanilla CSS3 (Flexbox, Grid), React.js, Chart.js, Bootstrap
Backend & Tools:	Node.js, Express, FastAPI, Flask, PostgreSQL, Docker, Git, Linux, Pytest

PROJECTS

CineStream Engine — Enterprise Stream Analytics	Python, FastAPI, PostgreSQL, Docker
- Architected a video stream recommendation database engine refactored to high-throughput PostgreSQL. - Exposes query endpoints for personalization (recommendations based on category views) via auto-documented FastAPI. - Containerized database and app lifecycle via Docker Compose with continuous integration in GitHub Actions. Project Metrics: Seamlessly indexed and queried 120,000+ streaming analytics records across 8+ REST routes.	
HealthCare - Wellness Companion App	Python, Flask, SQLite, AJAX
- Engineered a wellness web application featuring secure visitor metadata logging (IP, browser specs) stored in local SQLite database tables. - Implemented an interactive medical scheduler utilizing AJAX to process booking requests without page refreshes, reducing load times. Project Metrics: Onboarded 1,200+ active users and logged over 450+ medical appointments during staging.	
Food Delivery KPI Analysis Dashboard	Python, Pandas, Chart.js, Flexbox
- Architected an automated data cleaning pipeline in Python to normalize delivery order datasets, applying IQR for outlier capping. - Integrated a dynamic frontend analytics console with Chart.js to render order volume trends, logistics maps, and delivery statistics. Project Metrics: Cleansed and analyzed a dataset of 85,000+ logistics delivery records with 14+ real-time KPI metrics.	

CERTIFICATIONS & ACHIEVEMENTS

Oracle Cloud Infrastructure 2025 Certified Foundations Associate: Verified credentials in core cloud architecture (Oracle University). Smart India Hackathon Competitor: Worked in a team of 4 to design and present an interactive data pipeline visualizer within a 36-hour sprint. Academic Merit Honors: Earned department honors for outstanding academic performance at Parul University (CSE). LeetCode Competitive Coding: Solved 200+ algorithm and database query challenges on LeetCode.
